PRE-BONDED HAIR AND MICRO RINGS

ABOUT PRE-BONDED HAIR

With the pre-bonded hair method keratin is used to attach the extensions to your hair. This method is completely safe when carried out by professionals. We use Italian keratin as it has an almost transparent look and is comfortable to wear.

It takes about 2 hours to apply a full head and with this method the hair can last 3-5 months.

ABOUT MICRO RINGS

The Micro Rings hair extension method is very popular. The method involves human hair strands being put into micro rings which are then pushed shut to hold the hair strand safely onto your own hair.

It takes about 2 hours to apply a full head of micro rings. With this method the hair can last around 3 months.
